

China Premium Database

CEIC's China Premium database facilitates a seamless workflow for you to discover the precise information to make intelligent, accurate, and timely decisions. It archives over **300,000 time series** that cover comprehensive and granular macroeconomic data as well as information on the performance of various business sectors and industries.

The China Premium Database carries time points as early as **1949** and is maintained constantly by our dedicated analysts via close collaboration with primary local sources in China. This complete database offers you a single entry point to gain access to data from more than **500 sources** delivered in a very intuitive way. CEIC Data's China Premium Database is available in both **English** and **Chinese** and can be accessed online via CDMNext.
